Secretary's Remarks

Secretary Trogon shared that our Statewide Transportation Operations Center (STOC) was recently honored with national recognition of its response to Hurricane Florence. The National Operations Center of Excellence recognized the STOC for "major incident planning and response," which is one of four categories for the awards. The STOC optimized traffic flow away from the coast to assist in an efficient evacuation. They were responsible for coordinating and communicating detour routes in response to road closures. This is the inaugural year of the National Operations Center of Excellence Awards.

Secretary Trogon discussed the exciting month for both the Department and the North Carolina Turnpike Authority. After almost three decades of planning and work the Monroe Expressway opened to citizens last week. The Secretary articulated that motorists may now drive from Mecklenburg County to Union County on 18 miles of state-of-the-art infrastructure. He shared that the Monroe Expressway will not only connect citizens from Union County to Mecklenburg County, but will connect goods and services more efficiently throughout the region. Secretary Trogon was told by Dr. Rhett Brown, the President of Wingate University, that educational opportunities within the region will be greatly enhanced by the opening of the Monroe Expressway. He elaborated that Wingate University students will be able to more easily access medical and technical facilities in Mecklenburg County as part of their medical degree and certification programs. Secretary Trogon acknowledged Beau Memory and all staff with the North Carolina Turnpike Authority. He said their hard work and dedication have moved the project across the finish line and delivered a facility that the region greatly needs.

Secretary Trogdon shared that he met with members of the North Carolina Metropolitan Mayors Coalition at their annual meeting in Asheville. He stated that it was great hearing how the Department's progress in the past two years is being perceived by members of the Coalition. While there, he shared that he participated in discussion pertaining to their needs and heard suggestions on how the Department may improve its programs. He stated that the Department's processes for delivering transportation solutions are driven by local input. Because of this, he shared that it is important that local elected officials from municipalities large and small are engaged in the transportation planning process. Member Mayors were very excited and supportive of the Department expanding "virtual public meetings" capabilities. The Secretary stated that at the end of the day the Department's mission is to build facilities that people want, need, and will use.

Secretary Trogdon discussed his visit to the Smith Reynolds Airport in Winston-Salem. The event, put on by the local chamber of commerce and airport authority, was to highlight the innovation and growth that is occurring at the airport. All of the state's 72 general aviation airports are integral pieces of their local economies; they provide much needed tax revenue and can be gateways for economic development in their respective regions. The Secretary stated that we will continue to support Smith Reynolds as they complete their vision of how this facility will support their long-term economic competitiveness.

Secretary Trogdon reminded everyone that we are a little more than a month away from our inaugural North Carolina Department of Transportation (NCDOT) Transportation Summit. He stated that we have assembled a fantastic lineup of speakers and panelists that will help us discuss the future of transportation. He mentioned that there are very limited seats left and, if you haven't registered yet; please do so immediately.

Extra Mile Awards

Secretary Trogdon presented the Extra Mile award to Jason Westbrook. The Secretary shared the following information; on September 15th, Jason was assisting Sampson County maintenance with installing barricades and high-water signs in response to Hurricane Florence. Jason had arrived at an area where the water was crossing 701. They were getting ready to put barricades out to close the road when he noticed that a small vehicle was in the water and it had appeared to have stalled out. Jason made it to the vehicle and assisted getting the citizen out of his vehicle and to safety. Secretary Trogdon thanked Jason, for going above and beyond to assist a stranded motorist.

Secretary Trogon presented the Extra Mile award to Austin Brown, Tim Marley, and Keith Davis. The Secretary shared the following information; on September 16th these three employees were also working in Sampson County in response to Hurricane Florence. While placing barricades they were informed by a motorist that a car had been swept off the road by rising water. The three men immediately ran to help rescue the stranded citizen. Their ability to perform as a team and perform a swift water rescue likely saved someone's life. Secretary Trogon thanked Austin, Tim, and Keith for the great job they did.

Secretary Trogon presented the Extra Mile award to Hakeem Brown. The Secretary shared the following information; on Thursday, September 20th Hakeem Brown was supporting local law enforcement in Bladen County in response to Hurricane Florence. He became aware of a nearby nearly submerged vehicle with passengers inside. Inspector Brown quickly responded and with the assistance of another first responder removed both passengers from the vehicle before it became fully submerged. Secretary Trogon thanked Hakeem for his selfless actions and stated that during disasters such as hurricanes, it's easy to praise the DOT for repairing and reopening roads. But the untold stories of the heroism of our employees are just as important and deserve to be widely celebrated.

Secretary Trogon presented the Extra Mile award to Bryant Adams. The Secretary shared the following information; on August 29th Bryant Adams was working in Johnston County when he witnessed a major accident on I-40. A flatbed truck loaded with lumber had struck several vehicles causing a chain reaction crash. As a result, two of the vehicles had caught on fire. He immediately grabbed his fire extinguisher to go assist the driver in the burning vehicles. As he got to the first burning car he realized that the victim in the car was severely injured and that he needed immediate help. Bryant made a "split second" decision to remove the injured motorist from the burning vehicle, while disregarding his personal safety. With the help of other citizens Bryant was successful in removing several other injured motorists from immediate danger from the burning vehicles. Secretary Trogon thanked Bryant for his courage and acknowledged how his actions saved the lives of several people that day.

A Resolution to Establish Tolls for the Hatteras-Ocracoke Passenger Ferry by the
North Carolina Board of Transportation

WHEREAS, in 2013, the North Carolina General Assembly mandated that new ferry acquisitions be funded through Strategic Transportation Initiative funding and by revenue-raising initiatives such as tolling, advertising, and concessions; and

WHEREAS, N.C. Gen. Stat. § 136-82 mandates that the Board of Transportation shall establish tolls on the passenger-only Hatteras-Ocracoke ferry route.

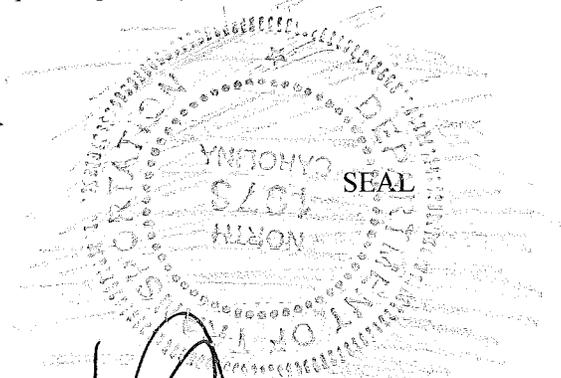

WHEREAS, Hyde and Dare County Commissioners have expressed their support by resolution for passenger ferries going to and from Hatteras and Ocracoke islands.

WHEREAS, the North Carolina Department of Transportation (“NCDOT”) anticipates commencement of the operation of a passenger-only Hatteras-Ocracoke ferry route in the spring of 2019

WHEREAS, NCDOT desires to vary toll rates based on fluctuation in demand and the need to promote this service but under no circumstances will the toll exceed \$15 per passenger for a roundtrip ticket.

NOW THEREFORE, be it resolved that the North Carolina Board of Transportation hereby establishes a variable toll of no more than \$15 per passenger for a roundtrip ticket on the passenger-only Hatteras-Ocracoke for the Hatteras/Ocracoke passenger ferry.

ADOPTED this day, 6 of December, 2018

Chairman, Board of Transportation

Secretary, Department of Transportation

Logo/TODS Administrative Code

Per GS 150B-21.3A, passed during the 2013 legislative session, all administrative code/rules adopted pursuant to G.S. 150B Article 2A will be reviewed every 10 years to make sure the rules are still necessary, within the agency's authority, and address programs that still exist. Rules, as a result of the review, that were deemed necessary with public interest are required to be readopted. NCDOT completed the reviews this year and the agency is now in the process of readopting applicable rules.

Currently, NCDOT is readopting rules in 19A NCAC Chapter Two – Division of Highways. The Secretary of Transportation is the rule-making authority for all rules except those pertaining to the Logo Program and TODS Program. The Board of Transportation is the rule-making authority for these rules, of which four need to be readopted.

State Traffic Engineer Kevin Lacy, P.E. is recommending that the rules be readopted without substantive changes. The readoption process requires that the proposed rules be posted on the agency web site and included in the NC Register and that the agency take public comments for 60 days. Staff is requesting Board approval to submit the proposed rules to the Office of Administrative Hearings and begin the public comment period.

At the end of the public comment period, any comments submitted will be reviewed and staff will present final recommended rule language to the Board for approval. The anticipated date for that action will be the April Board meeting. Following Board approval in the spring, the rules will be submitted to the Rules Review Commission for approval.

2018 Ethics Compliance

Background

Per Kathy Edwards, Associate General Counsel at the State Board of Elections and Ethics Enforcement Office,

“The Ethics Act requires that potential conflicts be disclosed by the Board chair and included in the Board minutes. G.S. 163-159(c). The practice has been that once an evaluation notes a potential conflict, then the chair reads the particular paragraph at the next meeting of the board and that information is included in the minutes. The Ethics Commission’s former practice was to also attach the evaluations of all members to the minutes, but that is not required by G.S. 163-159(c).”

Action

To comply with this, each member present read the required information into the record at the meeting. For members unable to attend the meeting, their ethics information is provided in the record as well.

Mr. Michael Alford

We did not find an actual conflict of interest but found the potential for a conflict of interest. The potential conflict identified does not prohibit service on this entity.

Mr. Alford will fill the role of a representative of the 3rd Transportation Division on the Board. Mr. Alford disclosed that he owns interests in a number of public companies, including Norfolk Southern Corporation. As such, has the potential for a conflict of interest and should exercise appropriate caution in the performance of his public duties should issues involving these entities come before the Board for official action.
