3		located within 500 feet of an interchange, collector distributor, intersection at
4		grade, safety rest area or information center regardless of whether the main
5		traveled way is within or outside the town or city limits. The 500 feet spacing
6		shall be measured from the point at which the pavement widens for a ramp and
7		the direction of measurement shall be along the edge of pavement away from the
8		interchange, collector distributor, intersection at grade, safety rest area or
9		information center. In those interchanges where a quadrant does not have a ramp,
10		the 500 feet for the quadrant without a ramp shall be measured along the outside
11		edge of main traveled way for freeways highways as follows:
12		(A) Where a route is bridged over a freeway the 500 foot measurement shall
13		begin on the outside edge of pavement of the freeway at a point directly
14		below the edge of the bridge. The direction of measurement shall be
15		along the edge of pavement away from the interchange.
16		(A)(iii) Where a route is bridged over a fully controlled access highway, the 500
17		foot measurement shall begin on the outside edge of pavement of the
18		fully controlled access highway at a point below the edge of the bridge.
19		The direction of measurement shall be along the edge of pavement away
20		from the interchange;
21		(B) Where a freeway is bridged over another route, the 500 foot
22		measurement shall be made from the end of the bridge in the quadrant.
23		The direction of measurement shall be along the edge of main traveled
24		way away from the bridge.
25		(B)(iv) Where a fully controlled access highway is bridged over another route,
26		the 500 foot measurement shall be made from the end of the bridge in
27		the quadrant. The direction of measurement shall be along the edge of
28		main traveled way away from the bridge; and
29		(C) Where the routes involved are both freeways, measurements on both
30		routes shall be made according to (A) or (B) of this Subitem, whichever
31		applies.
32		Should there be a situation where there is more than one point at which
33		the pavement widens along each road within a quadrant, the
34		measurement shall be made from the pavement widening which is
