

NC MOVES 2050
CONNECTING YOUR COMMUNITY,
YOUR VOICE AND YOUR FUTURE

IMPLEMENTATION PLAN

FOR CONNECTING COMMUNITIES ACROSS NORTH CAROLINA

NC Moves 2050 lays out a strategic plan for connecting communities across North Carolina in a way that is more responsive, diverse and inclusive. This vision can be achieved when the plan's five objectives, eight strategies and 32 actions that were developed from over two years of research, analysis and public input are implemented.

THE NC MOVES 2050 IMPLEMENTATION PLAN:

REQUIRES A SUSTAINED,
MULTI-YEAR APPROACH

BUILDS ON EXISTING
PLANNING ACTIVITIES

DEPENDS ON STAFF EXPERTISE

INCLUDES AND RELIES ON EFFORTS
FROM EXTERNAL PARTNERS

Above all, the implementation plan creates a process in which the NC Moves 2050 Plan acts as a “living document” helping the N.C. Department of Transportation adapt to, prepare for and navigate through future changes and uncertainties.

TIER 1 ACTIONS

The NC Moves 2050 Implementation Plan details how the NC Moves 2050 Tier 1 actions will be implemented over the next decade. It also serves as a roadmap to guide NCDOT leadership, staff and key partners to establish a commitment to implementing the plan and a structure for guiding any future updates. The implementation process is supported by the following activities:

IMPLEMENTATION PROCESS

- **PRIORITIZE TIER 1 ACTIONS** | While some actions are already underway, others need additional study or resources to begin. The actions should be further screened and prioritized based on readiness, resource needs and risk as a starting point for implementation.
- **INCORPORATE LESSONS LEARNED FROM PEER STATES** | Considering practices used by other state DOTs that align their decision making with the policies recommended in their strategic plan may benefit NCDOT through implementation.
- **ENGAGE AND INVOLVE EXTERNAL PARTNERS AND LEVERAGE INTERNAL RESOURCES** | External partners should be included throughout the implementation process and will play an important role in successful implementation and communication to broader audiences.
- **GUIDE FUTURE NC MOVES 2050 PLAN UPDATES** | Using the implementation plan will provide a way to report on activities and accomplishments to guide future statewide transportation plan updates.
- **PROVIDE POLICY GUIDANCE TO DEVELOP OTHER PLANS** | NC Moves 2050 can function as a planning and policy “umbrella” to guide and align other system plans.
- **COMMUNICATE PROGRESS AND PERFORMANCE** | Tracking and reporting on the progress of strategies and actions recommended by the NC Moves 2050 Plan could help NCDOT meet existing and future performance targets.
- **EVOLVE POLICY AND PRACTICE TO ADDRESS MULTIPLE PLAN OBJECTIVES** | The execution process should support policy and practice changes at different levels of leadership within NCDOT and should connect to multiple plan objectives and NCDOT goals where possible.

Collectively, these implementation activities provide a foundation and path forward to advance the NC Moves 2050 Plan and ensure NCDOT continues to realize the plan vision and goals.
